
Exide Golf Edition

– special charger for 12-volt golf trolleys

Fully automatic and easy to use

An electric golf trolley makes any round of golf an even greater pleasure. You can concentrate on your game, without having to pull your bag around the whole course.

EXIDE GOLF EDITION is a special charger for golf trolleys. Regular charging extends the battery's service life and keeps it fresh. As a golfer, you know that planning is crucial. With a fully charged battery, you know your trolley will work when you need it.

The EXIDE GOLF EDITION is an excellent modern battery charger. It is primarily intended for charging 12 V

valve-regulated AGM/GEL batteries, sizes 15 to 85 Ah, but can also be used to charge other types of lead-acid batteries.

The charger is fully automatic and easy to use – simply connect it and the charger does the rest. It also has a built-in temperature compensator that adjusts the charge power depending on the surrounding temperature and prevents overheating. The charger is spark-proof and protected against faulty assembly and battery faults.

Exide Golf Edition

– special charger for 12-volt golf trolleys

Technical specifications

Input voltage	220-240 VAC +/-15 %
Input current	Max 1 A
Back current	≤1 mA
charging voltage	13,7 - 15,5 VDC at 25°C
Charging current	Max 4 A
Ripple voltage	Max 70 mV
Ambient temperature	- 40 – + 50 °C
Cooling	Convection
Type of charge	6 step, I ₁ , I ₂ , I ₃ , I ₃ /U, U, U _h U _h : 13,7 V (Maintenance charge)
Lead-acid battery types	AGM/GEL, standard batteries
Battery capacity	15 – 85 Ah
Cabling	Battery cable 1700 mm Power cable 2x0,75 mm ² 1800 mm
Dimensions (L x W x H)	225x50x50 mm
International Protection rating	IP54
Weight	0,5 kg
